Community Partners:

The National Association of Health Services Executives (NAHSE) strives to improve the health status, economic opportunities, and educational advancement of the communities we serve. The NAHSE Florida Chapter (NAHSE-FL) embodies the vision through skill building workshops and high profile community events. NAHSE-FL invites your organization to become a corporate partner. Participation as a corporate partner provides your institution access to hospital decision makers – administrators and clinicians. The membership of NAHSE-FL includes a diverse group of individuals spanning across national healthcare institutions and global commercial institutions. NAHSE-FL is a local division of the larger organization and is one of the more progressive and innovative chapters. The National Executive Board of NAHSE has recognized NAHSE-FL for exceptional programming and initiatives. The chapter is committed to advancing the role and contribution of minority executives, rendering healthcare to underserve, and driving equality in healthcare on a daily basis.

As a NAHSE Corporate Partner your organization will be supporting diversity and inclusion initiatives for healthcare executives throughout the State of Florida. Moreover, you would be contributing to the mission of advocating for quality in leadership, career advancement, and advocating for healthcare disparities that plagues so many communities.

Your contribution report will be sent as a way of documenting and conveying to your organization the impact of the partnership. On behalf of the Executive Officers, I thank you and your organization for the generous contribution that will enable the chapter to accomplish its mission in 2020.
