Community Partners:

The National Association of Health Services Executives (NAHSE) strives to improve the health status, economic opportunities, and educational advancement of the communities we serve. The NAHSE Florida Chapter (NAHSE-FL) embodies the vision through skill building workshops and high-profile community events. NAHSE-FL invites your organization to become a corporate partner.

The novel coronavirus, commonly known as “COVID19,” has reshaped the direction of the initiatives deployed to address disparities. Under this new environment, NAHSE-FL is committed to serving the community through a holistic three phase approach designed to strengthen the Mind, Body, and Soul. Each component focuses on ensuring that essential resources are accessible to those most vulnerable and disadvantaged during this pandemic. Ultimately, the chapter is committed to advancing the role and contribution of minority executives, rendering healthcare to underserved, and driving equality in healthcare daily.

As a NAHSE Corporate Partner, your organization will contribute to diversity and inclusion initiatives that support the health ecosystem throughout the State of Florida. Moreover, you would be contributing to the mission of advocating for quality in leadership, career advancement, and advocating for healthcare disparities that plagues so many communities.

Your contribution report will be sent as a way of documenting and conveying to your organization the impact of the partnership. On behalf of the leadership team, I thank you and your organization for the generous contribution that will enable the chapter to accomplish its mission in 2021.
